# Global System Integrator Program Plex Production Monitoring Capability Overview

The Plex Production Monitoring Capability is intended to promote a System Integrators' expertise in delivering state of the art information solutions to industrial clients. The Plex Production Monitoring Capability is appropriate for existing as well as new OT partners who have an interest in expanding their value through delivery of information solutions that solve customers' business needs.

The Plex Learning Plan is available and posted to the System Integrator learning plan on the [Plex Education Portal \(PEP\)](#). Please review the [Plex Success Kit](#) for information on the Capability and how to access PEP.

After the Plex Training has been completed, the SI should engage our Partner Technical Enablement Consultant team for opportunity and implementation coaching.

### Requirements to receive capability

1. **Complete on-demand MES Production Monitoring Implementer Learning**
2. **Pass the Plex Production Monitoring Assessment with a score of 80% or higher**
3. **Successfully Implement 1 Plex Production Monitoring Project and complete First Project Review**
